## OUR STORY

Anna's Angels Foundation was started in honor of our daughter Anna Merrills who has Down syndrome. Down syndrome is the most common genetic disorder affecting 1 out of every 733 children born. When Anna was eighteen months old she was diagnosed with Acute Myeloid Leukemia

(AML). Anna's Angels is a fund under Duke Children's Hospital and Health Center. Anna is now nine years old and a thriving, beautiful little girl. The funds we raise all support cutting edge research at Duke. Since the inception of the Foundation in 2003 we have raised over \$655,000 for Down syndrome research.
