ANNA'S ANGELS FOUNDATION

# Our Story

Anna's Angels Foundation was started in honor of our daughter Anna Merrills who has Down syndrome. Down syndrome is the most common genetic disorder affecting 1 out of every 733 children born. When Anna was eighteen months old she was diagnosed with Acute Myeloid Leukemia (AML). Anna is now nine years old and a thriving, beautiful little girl. Anna's Angels is a fund under Duke Children's Hospital and Health Center. The funds we raise all support cutting edge research at Duke. Since the inception of the Foundation in 2003 we have raised over \$815,000 for Down syndrome research.
